

Governors Village Exterior House Colors

April 9, 2015

Governors Village Architectural Review Board

There is not a list of approved paint colors available. Residents planning to have their house painted can paint the exact same color without ARB approval.

If you want to change the color, please submit the Architectural Request Form with chips of the paint you would like to use for body, trim, shutters and front door. Check the houses on either side to avoid duplicating colors nearby. If you have questions, please call me.
