

Santa Claus is coming to Governors Village

Santa will be arriving in Governors Village in conjunction with the Lighting of the Luminaries on Saturday, December 13th starting in the Forest at approximately 2:45pm. He's hitching a ride on a fire truck and driving through each neighborhood stopping to hand out candy canes at the following locations and order:

Forest – at the entrance and Raintree Bend

Village – at the intersection of Fountain Park and Long

Towns – at the intersection of Loop Park and David Stone

Lake – at the top of Wicker and the access road

Park – at the pool parking lot

Parents please be sure your children stay on the sidewalks while the fire truck is in motion. **This is very important.** Trucks don't fly like reindeer.

While you are out enjoying Santa's visit, please consider helping your neighborhood coordinator setup the luminaries. Many hands make light work.

The GV Social Committee will also provide hot chocolate at Santa's stops.

Please be fire safe throughout the year especially during the holidays, and know that Santa and the Chatham County firefighters wish you and yours the very happiest of holiday.
